

SITE FACILITIES:

This recreation area contains two cabins for public use. The cabin closer to the road is an old cabin managed in co-operation with the Creston Valley Ski Club. It contains a large wood heater, a table, and two large sleeping platforms. It can sleep approximately 20 persons. The newest cabin was built to replace the old cabin once it becomes unsafe to use. It contains a heater, tables and benches, and a sleeping loft. It can sleep 6 comfortably, and 10 in a squeeze. Both cabins are available on a first-come first-serve basis.

ACCESS:

From Salmo take Highways #6 and #3 southeast for 37 kilometres (23 miles) to the pass at Bridal Lake. Park in the plowed area on the left side of the highway.

From the junction of Highways #3 and #3A north of Creston take Highway #3 northwest for 42.5 kilometres (26.5 miles) to the pass at Bridal Lake. Park in the plowed area on the right side of the highway.

From the parking area, cross the highway towards the south. The gravel road accessing the cabins begins immediately to the right of the Highway's maintenance yard. Take this road 3.2 kilometres (2 miles) to the top of the ridge where it levels off and before it drops into the next valley. Look for the trail into the cabins on the right at this point. The cabin is approximately 300 metres from the highway.

note that no motorized vehicles are allowed on this road in the winter.
